SLEAP

Joining Procedures

DELETE All **ADD Weekdays:** Standard overhead joins at 2000ft QFE. Circuits should be flown keeping to E of AD hence a RH or LH circuits may apply depending upon the Rwy in use. Caution should be exercised descending on the dead side as military helicopter may be operating up to 1,000ft agl within the ATZ to W side of active Rwy and may not be monitoring Sleap's VHF frequency.

OP 12/09

Weekend/Evening: Standard overhead joins at 2000ft QFE preferred, with LH circuits. RAF Shawbury entry/exit gates exist just to SE of Sleap ATZ.

Circuit Procedures

DELETE Circuits generally LH except when RAF Shawbury is active, when circuits will be E of AD. Arr ACFT should carry out standard overhead joining procedure except when RAF Shawbury are active when ACFT should carry out a centre line join at 2000ft QFE. A full briefing on this procedure must be obtained by contacting the operator before dept.
